

APET Hinged Lid Container

If you're searching for a strong and secure packaging option, our APET hinged lid container offers a number of clear advantages.

APET, the same material used to manufacture many water and soda bottles, is one of the most environmentally conscious material choices.

You can count on the superb clarity of APET to make a striking presentation for your products.

These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
